Major Teaching and Clinical Responsibilities at the Thomas Jefferson University and Affiliated Hospitals: *(include course/clerkships/programs taught, coordinated or developed; advising/mentoring/tutoring)*

1. Mentoring trainees in clinical research (2005 onwards)

a) Mentored Tyler Kenning, a third-year medical student at Jefferson Medical College in writing a review article on *“Electroconvulsive therapy: review and update”* which was published in the Jefferson Journal of Psychiatry, 2005, with Mr. Kenning as the first author.

b) Primary thesis mentor for Nancy Diazgrandos, M.D., resident in psychiatry at Albert Einstein Medical Center in Philadelphia, PA, for her thesis for MS Pharmacology in Human Investigation (training in clinical research funded by a K30 grant from the NIH). Her thesis on *“Methods for the Ascertainment of Adverse Drug Reactions of Antidepressant Medications”* was accepted April, 2008. She worked with me on the project *“A Novel Patient-Rated Scale for Side Effects: Proof-of-Concept Study”* which she presented as a poster at the 48th Annual NCDEU meeting, May 2008. Dr. Diazgranados subsequently completed a research fellowship at the NIMH under the supervision of Carlos Zarate, M.D.

c) Mentored Ajay Sharma, M.D., fellow in child and adolescent psychiatry at Thomas Jefferson University in his project *“Efficacy of Depot Risperidone in Reducing Inpatient Readmission Rates”* which he presented as a poster at the American Psychiatric Association's 59th Institute on Psychiatric Services, October 2007.

d) Mentored Carly Woodmansee, M.D., resident in psychiatry at Albert Einstein Medical Center in Philadelphia, PA. She did a 4th year research elective with me and worked on the project *“Identification and Assessment of Adverse Effects in Antidepressant Clinical*

Trials” which she presented as a poster at the annual meeting of the American Psychiatric Association, San Diego, 2007.

e) Mentored Sejal Shah who did 4th year research and clinical electives with me and worked on the project “*A Survey of Journal Clubs in Psychiatry Residency Programs*” which she presented as a poster at the annual meeting of the American Psychiatric Association, San Diego, 2007.

f) Primary thesis mentor for Angelica Kloos, D.O., resident in psychiatry at Thomas Jefferson University, for her thesis for MS Pharmacology 2007-8. Dr. Kloos received the 2010 Promising New Investigators’ award from the Neuroleptic Malignant Syndrome Information Service (NMSIS) for her paper based on this project. Dr. Kloos is currently Chief Resident in child and adolescent psychiatry at Children’s National Medical Center.

g) Mentored Rajeev Mahajan, M.B.B.S., volunteer observer at Thomas Jefferson University who co-authored three review articles, one book chapter, and one research poster with me.

h) Mentored Ritu Grewal, M.D., fellow in Sleep Medicine at Thomas Jefferson University, in doing statistical analysis and interpretation for her project “*One Negative Polysomnography Does Not Exclude Obstructive Sleep Apnea*” which she presented as a poster at SLEEP 2008: the 22nd Annual Meeting of the Associated Professional Sleep Societies, June 2008, Baltimore, MD. Dr. Grewal is now Assistant Professor in Sleep Medicine at Jefferson Medical College.

i) Mentored Aarti Gupta, M.B.B.S., who is now resident in psychiatry at University of Texas at Houston. She worked with me on a series of projects: “*What’s in the Pipeline for Major Depressive Disorder?*” was presented by her as a poster at the American Psychiatric Association’s 61st Institute of Psychiatric Services in October 2009; “*Latest clinical trials in major depressive disorder: What kinds of drugs and what kinds of trials?*” was presented by her as a poster at the annual meeting of the American Psychiatric Association, May 2010; “*Latest Clinical Trials in Child and Adolescent Psychiatry: What Kind of Trials and What Kinds of Treatments?*” was presented as a poster at the Annual Meeting of the American Academy of Child and Adolescent Psychiatry (AACAP), October 2010.

j) Mentored Srimanarayan Marella, M.B.B.S., volunteer Observer at Thomas Jefferson University who worked on the project “*How to Use Adverse Events Listed in the PDR for Antidepressants?*” which was presented as a poster at the annual meeting of the American Psychiatric Association, May 2010. Dr. Marella is now a resident in Family Medicine in Illinois.

2. Course Director, Evidence-Based Medicine (2007-8). Psychiatry Residency Program, Thomas Jefferson University, Philadelphia, PA. Curriculum development and teaching in EBM for PGY-1 through PGY-4 residents.

3. Evidence-Based Medicine in Pharmacology. (2007 onwards). Pharmacology 401 (elective course for 4th year medical students at JMC); Course Director Walter Kraft, M.D. One two hour workshop for each of two groups on MEDLINE searching. One 90-minute lecture on Using Appropriate Sources of Evidence.

4. Evidence-Based Medicine (2007 onwards). Developed and personally teach curriculum in EBM for the entire class of 11nd year medical students, Jefferson Medical College, Philadelphia, PA. Curriculum consisted of an online pre-test and post-test along with 3 modules, each consisting of a 90-120 minute lecture.

(In 2008, I also provided detailed written commentaries on papers discussed by the students in small groups, explaining how to read and understand the papers. These commentaries were distributed to the more than 40 faculty members who co-led small groups for the students to discuss these papers.)

5. Curriculum coordinator for Mood Disorders (2007onwards). Jefferson Medical College, Philadelphia, PA.

Includes:

- a) Development and coordination of all teaching pertaining to Mood disorders from 1st through 4th year of medical school (entire class of 240 students)
- b) Two lectures for 1st year medical students (entire class of 240 students)
- c) Two lectures for 2nd year medical students (entire class of 240 students)
- d) Two workshop for each of 6 groups of medical students rotating to psychiatry (overall including entire class of 240 students) on Mood Disorders and Psychopharmacology of Mood Disorders. Developed a novel discussion and role-play format to provide practical tips on issues that students typically have difficulty with ranging from characterization of affect to screening for bipolar disorder to avoiding drug-drug interactions with antidepressants.
- e) One lecture for 4th year medical students on practical issues in using antidepressants (including their use in patients with a variety of medical illnesses).

6. Consultation-liaison psychiatry course: Lecture on “Antidepressants in the Medically Ill” (2004 onwards) for 2nd year psychiatry residents (Number of students: 6-8 each year).

7. Individual supervision of 2 – 3 psychiatry residents (one hour once a week for each resident; 2003 onwards).

8. Research electives for medical students and residents. One month half or full-time rotations for medical students and residents from Jefferson Medical College or Albert Einstein Medical Center.

9. Teaching Attending and Medical Student Clerkship Director, Division of Consultation-Liaison Psychiatry, Thomas Jefferson University, Philadelphia, PA (July 2003 – June

2006). Included teaching rounds 2-4 half-days a week focused on psychopharmacology in medically ill patients.

10. Mood Disorders Clinic with emphasis on patients with other medical disorders. 2008 onwards. Four hours per week. Direct clinical supervision of two Fellows in Psychosomatic Medicine.

11. Training in Initial Psychiatric Interview. Developed and organized assessment and training for psychiatry residents (2007)

12. Teaching at the Delaware State Hospital residency program. June 2, 2009: Workshops on MEDLINE Searching and on Using Appropriate Sources of Evidence. June 9, 2009: Two lectures on Drug-Drug Interactions and on Using Rating Scales to Enhance Clinical Practice.

13. Miscellaneous Two workshops on Practice Guidelines in Mood Disorders for 2nd year psychiatry residents (February 2010)
